Introduction

Ad-din Foundation was established in 1980 with the aim of supporting the underprivileged of Bangladesh. Its first project was building an orphanage in Jashore. During its thirty-seven years with development, Ad-din has expanded its existence of diverse projects in several parts of the country.

Ad-din's current projects include hospitals in Dhaka, Keranigonj, Jashore, Kushtia, Khulna and Postogola; Medical Colleges in Dhaka, Jashore, Keranigonj, Khulna and Postogola; Nursing College in Dhaka, Nursing Institutes in Dhaka, Jashore and Kushtia and a Medical Technology Institute in Jashore. There are also Mobile Eye clinics, Maternal and Child Health Project, Prevention and repair of obstetric Fistula plus Project, Integrated Health and Microfinance Program including Health Insurance.

Ad-din hospitals were established with the aim of providing affordable quality care. Ad-din's chain hospitals are now recognized as centers of excellence acclaimed for their quality, affordability and patient friendliness.

The Ministry of Health and Family Welfare of the Government of People's Republic of Bangladesh accorded approval to Ad-din Women's Medical College (AWMC), Dhaka in 2008, Ad-din Sakina Women's Medical College (ASWMC), Jashore in 2012, Ad-din Momin Medical College (AMMC), Keranigonj, Dhaka in 2013, Ad-din Akij Medical College (AAMC), Khulna in 2013 and Barrister Rafiq-UI Huq Medical College (BRHMC), Postogola, Dhaka in 2025.

Ad-din is trying to secure excellent teaching facilities and dedicated teams of faculty members, some of whom are authorities in their own disciplines. Given the resources at its disposal, Ad-din continues to develop outstanding medical graduates who are both excellent in their clinical practice and equally conscious about their social obligations.

Vision

The Medical Colleges of Ad-din aspire to achieve national and international recognition for its quality education and capability in developing graduate physicians with the essential knowledge, skill and professionalism to successfully continue their service and pursue career to serve the nation better through health promotion, disease prevention, treatment and medical research.

Mission

The mission of the Medical Colleges of Ad-din is to produce quality physicians who

- would contain essential knowledge, skill and professionalism as prescribed by the Bangladesh Medical and Dental Council (BMDC) and are capable of good medical practice with the habit of life-long learning,
- would possess the ability to work in different working situations and be future leaders of the national health care system,
- would assist in meeting the health care and research needs of the country.

Message from the Founder Chairman

Ad-din Foundation

By the grace of almighty Allah, Ad-din has successfully established five Medical Colleges, Ad-din Women's Medical College, Dhaka in 2008, Ad-din Sakina Women's Medical College, Jashore in 2012, Ad-din Momin Medical College, Keranigonj, Dhaka in 2013, Ad-din Akij Medical College, Khulna in 2013 and Barrister Rafiq-Ul Huq Medical College, Postogola, Dhaka in 2025. I am grateful to the respective authorities of the Ministry of Health and Family Welfare, the University of Dhaka, the Medical University of Rajshahi, the Bangladesh Medical and Dental Council (BMDC) for their visionary support and guidance.

Since its inception, Ad-din's Medical Colleges have been continually striving for excellence in the field of Medical Education. We are shaping young minds to become future leaders in health services, medical education, research and public health. It is the winning spirit which we want to install into each student's mind. Our educational strategy is to create a learning environment and guide students to acquire the appropriate knowledge, skills and temperament to practice medicine and be a member of the multidisciplinary health care team. Ad-din aims to bring in synergy between objectives of its Medical Colleges and guidelines of BMDC, and also the holistic personal development of the students to become ideal citizens as well as distinguished physicians. I am sure the teachers and students of the Medical Colleges of Ad-din will create new success stories in the history of private medical education in Bangladesh. Private medical colleges play a vital role in strengthening Bangladesh's healthcare system by producing well-trained professionals who serve the nation and contribute to community health.

The Medical College Hospitals of Ad-din already offer a wide range of services to its patients in both medical and surgical specialties. These facilities provide students with good opportunities for clinical learning. Given the focus of the Hospitals on serving the underprivileged population of Bangladesh, I am sure the students will grow into empathetic doctors dedicated to serving their community.

May almighty Allah bless us all and give us the capacity to develop our students as leaders in the field of health care.

Dr. Sheikh Mohiuddin

Chairman - Ad-din Foundation
and

President - Bangladesh Private Medical College Association

Institutional Objectives

The students graduating from the Medical Colleges of Ad-din should

- be competent in diagnosis and management of common health problems, commensurate with her/his position as a member of the health team at the primary, secondary or tertiary levels using her/his clinical skills based on history, physical examination and relevant investigations.
- be competent to practice preventive, curative and rehabilitative medicine in respect to the commonly encountered health problems.
- be familiar with different therapeutic modalities and be confident with the administration of the “essential drugs” and their common side effects.
- be able to appreciate the social, psychological, cultural, economic and environmental factors affecting health and develop an empathetic and sensitive attitude in discharging professional responsibilities.
- possess the attitude for continued self learning and seeking further expertise or pursuing research in any chosen area of health care.
- be familiar with basic factors, which are essential for the implementation of the National Health Policy/ Programs including practical aspects of the following :
 - reproductive and child health program.
 - prevention and control of communicable and non-communicable diseases.
 - health promotion and behavior changes in disease control.
 - environmental sanitation and climate change.
 - health in different work places.
- acquire basic management skills in the area of human resources, materials and resource management related to health care delivery.
- be able to identify public health problems and learn to work to resolve these by designing and instituting corrective steps and evaluating outcome of such measures.
- be able to work as a member of the health care team and acquire proficiency in communication skill.
- be competent to work in a variety of health care settings.
- have personal characteristics and attitudes required for professional life such as personal integrity, sense of responsibility and reliability and ability to relate to and show concern for other individuals.

All efforts will be made to equip the medical graduates acquiring the detailed skills and competencies as prescribed by the Bangladesh Medical & Dental Council (BMDC).

Admission

Session

Applications are invited from the Bangladeshi and foreign students for admission in to First Year MBBS for the specified session.

Academic requirements for Bangladeshi students

- SSC or equivalent examination in specified years and HSC or equivalent examination in specified years with Physics, Chemistry and Biology.
- Minimum combined GPA of 9.0. Minimum GPA of 3.5 in Biology in HSC. Candidate referred in any examination will not be accepted.
- Students who have undertaken O and A level examinations should submit equivalence certificates to be collected from the Directorate General of Medical Education (DGME), Government of the People's Republic of Bangladesh along with the application.

Selection Process

(for national student)

- Final selection will be based on a written assessment, GPA scores and medical fitness.
- Selection will be absolutely on merit, based on scores of:

$(SSC\ GPA \times 15) + (HSC\ GPA \times 25) = 200$	
Written Admission Test	= 100
Total	= 300

- The written admission test will be conducted by the Directorate General of Medical Education (DGME). Selection of the candidate will be accomplished following the merit list announced by the DGME for the private medical colleges.
- Qualified candidates are invited to an interview by a board of medical specialists of Medical College Hospital of Ad-din Foundation (AWMC, ASWMC, AMMC, AAMC & BRHMC), to review and confirm their physical fitness. It is mandatory for the candidate to qualify in the physical fitness tests.

Application Process

- The candidate should collect and submit the application form in person.
- The following documents should be submitted along with the application:
 1. Attested photocopies of SSC Certificate and academic transcript or equivalent examination certificate.
 2. Attested photocopies of HSC Certificate/testimonial and academic transcript or equivalent examination certificate.
 3. Attested five recent passport size colour photographs (same as admit card)
 4. Attested photocopy of the Citizenship Certificate from the City Corporation Mayor/ Municipal Mayor/ Union Parishad Chairman/ Ward Commissioner/Ward Councillor.
 5. Money receipt of application fee.
 6. Birth Certificate/NID

Original copies of all the above documents are to be submitted at the time of admission.

Admission Process

(for national student)

Candidates who fulfill the entry requirements, as per the results announced by the Directorate General of Medical Education (DGME), should submit the completed Application Form during office hours.

List of the selected candidates along with a waiting list will be displayed on the College Notice Board. Selected candidates are required to report to the College administration desk for admission at the specified date and time. In case of failure in admission by the selected candidates within the stipulated date and time, the vacant seat(s) will be filled up by the candidate(s) from the waiting list.

Applications with incomplete and incorrect information will not be accepted. Any willful inclusion of incorrect information will automatically disqualify the candidate.

Any decision made for admission related matters by the admission committee will be considered as final.

Financial involvement : The selected students will pay admission fees and other charges at the time of admission through account payee Pay Order or Bank Draft in favour of following Bank Accounts:

Name of Bank Accounts of 5 Medical Colleges:

- Ad-din Women's Medical College

Teachers' Responsibility

Teachers are responsible for

- I. Following the principles of good professional practice and ethics and be a role model for the students.
- II. Developing the skills to be a competent teacher and guide to the students whom they are teaching.
- III. Supervising the progress of students' learning and taking active part in mentorship program to help the students learn the skills and achieve competence while ensuring the safety of the patient.
- IV. Assessing the students' performance objectively and constructively so as to improve their knowledge and skills.
- V. Pursuing matters related to teaching which are of paramount importance for the clinical teachers and carrying out practices which are learner-friendly and non-compromising to patient's safety.

Students' Responsibility

Students are responsible for

- I. Attending all teaching sessions, completing all assignments given by the faculty and maintaining academic discipline and being punctual.
- II. Executing their own learning and achieving the objectives set by the Bangladesh Medical and Dental Council (BMDC).
- III. Ensuring the patients' safety by working within the limits of their respective competencies.
- IV. Maintaining a cordial relationship with peers, hospital employees engaged in patient service and the community at large.
- V. Engaged in continuous self-improvement based on the systematic evaluation of their learning by the teachers, accepting positive criticism and mitigating self-deficiencies with the assistance of their teachers/mentors.

Discipline and Moral Values

1. Students are required to follow the moral codes and attend moral classes.
2. Regular prayers, as prescribed in the religion, are encouraged for every Muslim student.

Communication with Guardians

Constructive advice from the parents on College affairs is welcome. Parents are informed regularly about their son/daughters' academic performance and class attendance. They are also invited to put forward suggestions to improve the performance of the students.

The Duties of a Registered Doctor

A doctor must be able to obtain trust of a patient on his/her life and health. To justify trust, registered doctors must show respect for human life in the following ways :

1. Make patient care your first concern.
2. Protect and promote the health of patients and the public.
3. Provide a good standard of practice and care.
 - a. Keep professional knowledge and skills up to date
 - b. Recognise and work within the limit of their competence
 - c. Work with colleagues in the ways that best serve patients' interests
4. Treat patients as individuals and respect their dignity.
 - a. Treat patients politely and considerately
 - b. Respect patients' right to confidentiality
5. Work in partnership with patients.
 - a. Listen to patients and respond to their concerns and preferences
 - b. Give patients information they want or need in a way they can understand
 - c. Respect patients' right to reach decisions about their treatment and care
 - d. Support patients in caring for themselves to improve and maintain their health
6. Be honest and open and act with integrity.
 - a. Act without delay if doctors have good reason to believe that they or a colleague may be putting patients at risk
 - b. Never discriminate unfairly against patients or colleagues
 - c. Never abuse the patients' trust in doctors or the public's trust in the profession.

Good Medical Practice: Good Doctor

Patients need good doctors. Good doctors make patients' care as their first concern :

- They are competent,
- They keep their knowledge and skills up to date,
- They establish and maintain good relationship with patients and colleagues,
- They are honest and trustworthy, and
- They act with integrity.

Internship

All students completing the final Professional MBBS Examination shall be required to undergo a one-year internship programme as prescribed by Bangladesh Medical and Dental Council (BMDC) at the attached Hospitals of the Medical Colleges of Ad-din. The internship is compulsory and a prerequisite for obtaining regular registration from BMDC. The training is designed specifically to develop necessary skill and attitude to deal with common health problems, to work in hospitals and in the community. This training will be fully structured and rigorously supervised. The trainees will be entitled to appropriate subsistence allowances/ honorariums as per agreement.

Geneva Declaration by the World Medical Association

In September 1948 the World Medical Association in Geneva adopted the following declaration, which is intended to be sworn when a doctor is admitted as a member of medical profession :

- I solemnly pledge myself to consecrate my life to the service of humanity. I will give to my teachers the respect and gratitude which is their due.
- I will practice my profession with conscience and dignity.
- The health of my patient will be my first consideration.
- I will respect the secrets, which are confided to me.
- I will maintain by all means the honour and noble tradition of the medical profession.
- My colleagues will be my brothers/sisters.
- I will not permit considerations of religion, nationality, race, party politics or social standing to intervene between my duty and my patient.
- I will maintain the utmost respect for human life from the time of conception.
- Even under threat I will not use my medical knowledge contrary to the laws of humanity.
- I make these promises solemnly, freely and upon my honour.

Daily Mission Statement

In the name of Almighty I would like to pray so that-

1. I shall lead pure, modest and transparent life with moral behaviour and shall inspire others to do the same.
2. I shall try to keep myself away from all sorts of sin and guilt to become pure in body, mind and soul.
3. I shall respect my teachers as my father and mother.
4. I shall ensure gender friendly environment to our peers and others out of own faith, culture and religion.
5. I shall never blame or condemn my friends behind or in front of them.
6. I shall never speak or write any slang words which might hurt others.
7. I shall never take any harmful drug or provoke others to take.
8. I shall never hurt any patient or attendant with my behaviour.
9. I shall always respect and maintain privacy of all my patients and deal with it professionally.
10. I shall keep my professional knowledge updated and try to improve my professional skill all the time.
11. I shall be always positive in manner, attitude and respect to my religion and cultural values of my nation.

Oh, my Almighty! Please accept my prayer and guide me to seek help only from you and keep these obligations, and open all the doors of my mind to enter into the knowledge of ocean to serve the sick with an intention to satisfy you only.
